

Certification of sub-systems and products, supplementing safety certification of railway undertakings and infrastructure managers in railway transport Seminar.

13:00 – 18:00, 23rd September 2013 Gdańsk Poland

AMBEREXPO Exhibition and Convention Centre of the
MTG SA Gdańsk International Fair Co.

Organiser: SIRTS

We kindly invite you to participate in the seminar on „Certification of sub-systems and products, supplementing safety certification of railway undertakings and infrastructure managers in railway transport”, which will be held the day before the TRAKO Fair – 23rd September 2013 in Gdańsk. The aim of the seminar is to show and discuss overall safety certification in Railway Transport covering a number of areas, in which different experts are engaged. Advanced railway liberalisation process leads already now to increased level of difficulty and put companies in front of new challenges in this area. Therefore the objective of this seminar focus on review and arrangements of relevant measures ensuring safety, namely Certification of sub-systems and products, supplementing safety certification of railway undertakings and infrastructure managers in railway transport, on the example of Poland.

The participation in the seminar is payable. Participation fee per person is 600 PLN (about 150 EUR). Application Forms are obligatory.

Seminar languages: Polish & English.
